ABOUT US | Overview

AE Switch is a leading, dynamic payments service provider and facilitator. We provide businesses of all sizes with unique, flexible and seamless integration with their financial division in order for them to have an effortless and reliable transaction process.

We offer a very flexible, customisable payment solution to each business' individual needs. AE Switch's cutting-edge technologies have been developed and used in the financial industry for more than 15 years - proving our software to be very reliable and effective.

AE Switch is an extraordinary, one-of-a-kind business.

Customer satisfaction is our vision and passion; and that is what we give.

AE Switch processes millions of secure payment transactions on behalf of our clients each month. We activate your account without hassle and stress and our integration is seamless. AE Switch will set up a payment solution for your business, which will generate customer satisfaction in your business.

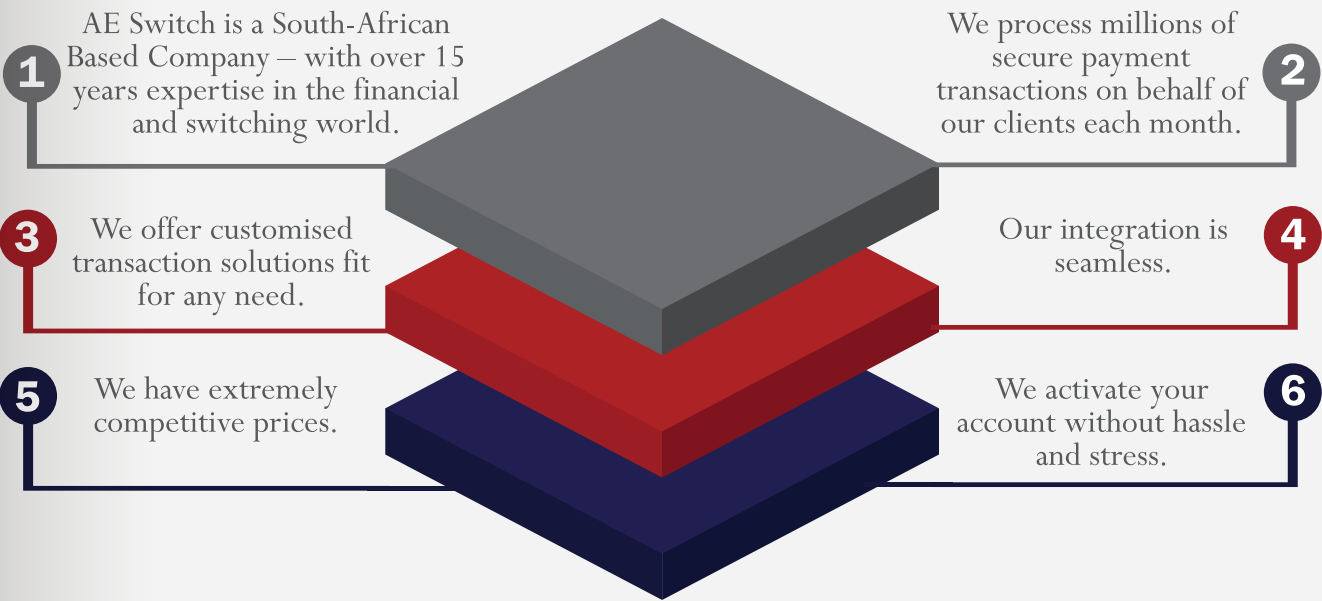

ABOUT US | Background

AE Switch was founded and driven by Tiaan Lombard, a highly esteemed programmer and businessman with an eye for detail and instinctive entrepreneurial skills. Tiaan incorporated his passion for programming and the corporate world to form a company that will give you ease of mind in regards to your transaction process – filling the need in the market.

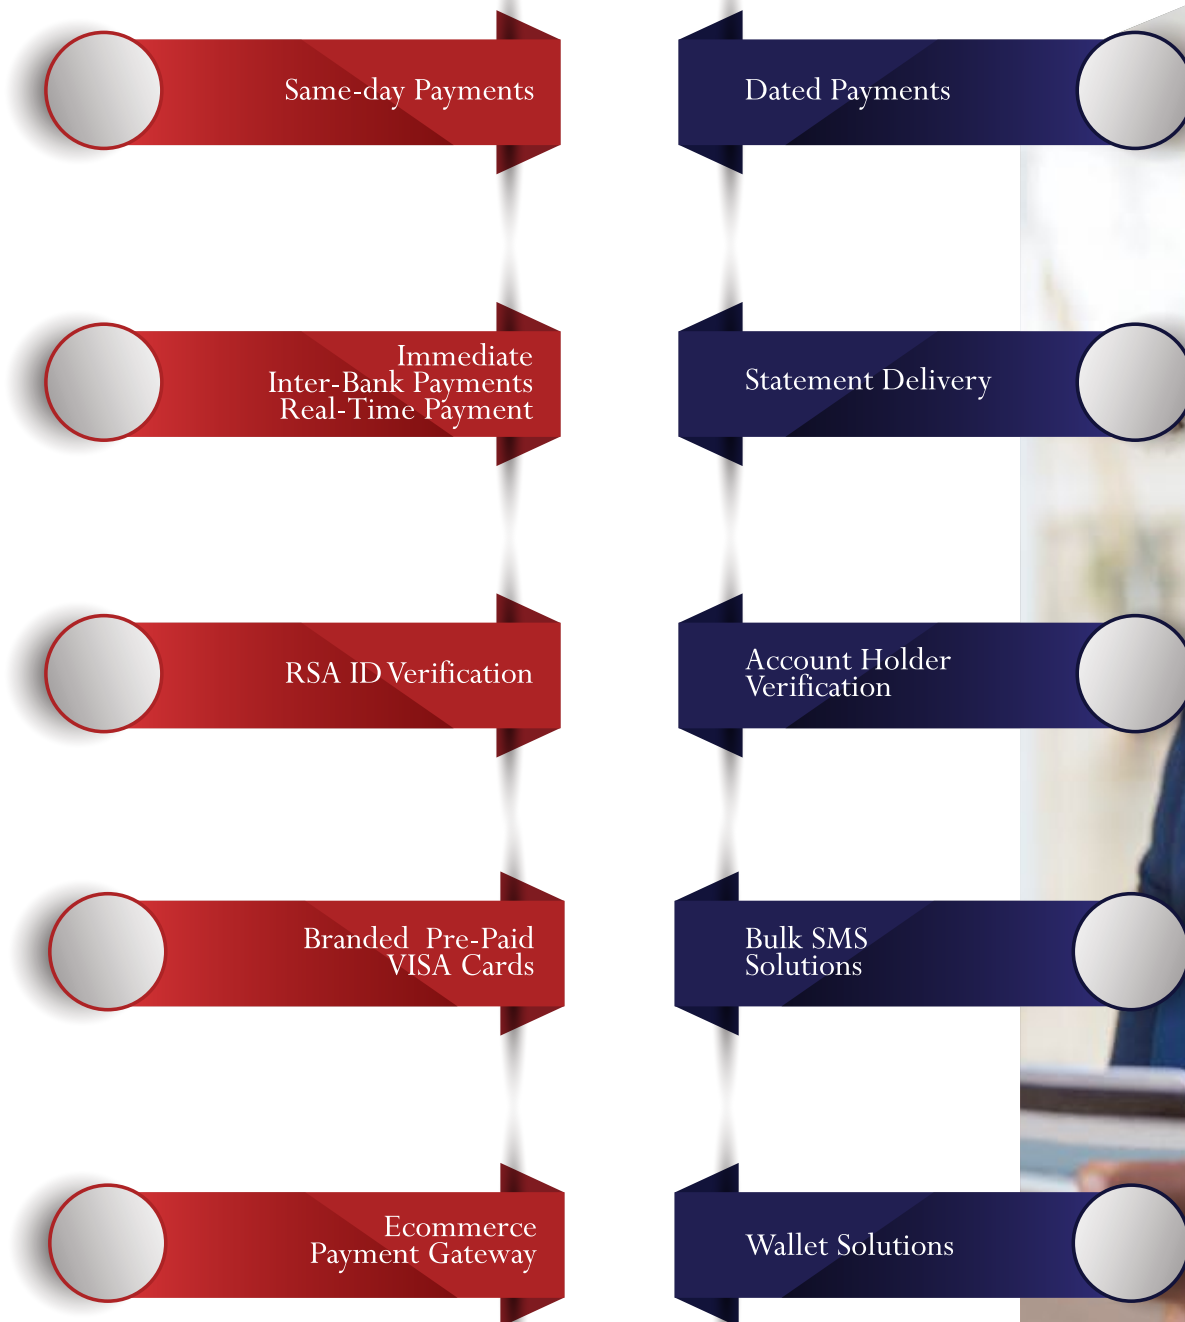

Tiaan is also a co-director and co-founder of a very successful I.T company, he always strives to be the best. The owner's competitive nature thus guided the company to instantly rise to the top of the game with a vision of being the most effective, reliable and automated payment solutions company in the country.

WHY CHOOSE | AE Switch

SERVICES | What We Offer

We offer a wide range of services to our clients and we pride ourselves in creating custom packages and services which will fit into the customers need. Our services offerings to our clients include, but is not limited to...

INDUSTRIES | We Service

Our closed-loop solutions offer a safe and secure payment method allowing controlled spend at select merchants. Systems are built specific to merchant requirements and, along with integration, provide the perfect complimentary payments platform for your daily needs.

Open loop solutions are here to take care of all your wage and reward system needs by removing the risk of cash for both merchant and end user. With fast and easy payments, your end users will receive their funds without hassle.

From wallet to prepaid card, we have got you covered.

- ▲ Education Industry
- ▲ Fuel Industry
- ▲ Hospitality Industry
- ▲ Retail Industry
- ▲ Tolling Industry
- ▲ Waste Industry

COMMUNITY Upliftment & Involvement

AE Switch has a passion for the community. We believe that through small actions, we can create positive changes that empower individuals to grow. We challenge others to take action because, together, we can uplift those who need a hand, we can bring life back to our rivers and we can ensure a safe and secure environment now, and for our futures. It is a privilege to be able to assist our communities for without you, there would be no us. Giving back where we can, to make the small changes that matter most.

WHAT TO EXPECT | From AE Switch

When dealing with clients, AE Switch takes pride in our professional, personalised approach to get a solution specially designed to meet all your transacting needs.

When working with AE Switch you can expect the following:

- Personalised Services of High Quality
- Short and effective turnover time with planning and integration.
- Seamless Integration.
- Competitive Prices
- An automated, worry-free payment solution

Choosing AE Switch for your automated payment solutions will ensure the smoothest way for money to get in and out of your business.
